The “R” series uses a unique removable cylinder enabling convenient master keying and key recombination of rental properties. The key may be removed or held captive in any switched position. This series is available in a variety of mounting types including panel, lift, bezel and wall plate. It is also available in a wide range of switching configurations.

Features

- Incorporates specialised lock cylinders for key removable in multiple positions.
- Cylinder removable from front without risk of the switch falling apart.
- May be master keyed into most common lock brands and high security lock systems.
- Electrical isolated cylinder for added safety
